To those insured under the National Health Insurance scheme

- 国民健康保険の被保険者の皆さんへ

Your new Health Insurance Certificate will be sent out around the end of July, in a light blue envelope. If you have not

received it by August, please contact the National Health Insurance and Pension Division. Your current Health Insurance Certificate is valid until Wednesday July 31st, 2024. From August 1st, please be sure to use your new Health Insurance Certificate.

The new Health Insurance Certificate is valid until Wednesday July 31st, 2025. In the following cases, though, the period of validity may be shorter:

If you are a student who is due to graduate in the current financial year;

If you are a non-Japanese resident whose permitted period of stay ends before July 31st, 2025.

On December 2nd, Health Insurance Certificates will be abolished. If you acquire a new qualification after abolition, or when switching, we will issue a 'qualification confirmation' or 'qualification information notification' to the insured. Even after the abolition, the Health Insurance Certificate can be used until July 31, 2025.

Even if you enroll in a health insurance scheme at your workplace, you are not automatically withdrawn from the National Health Insurance scheme. If you enroll in a new health insurance scheme, it is necessary to complete the formalities for withdrawing from the National Health Insurance scheme.

If your medical expenses look likely to become expensive, at hospitals and pharmacies that accept the use of the My Number card as an insurance card, you can reduce the burden of medical expenses by requesting to use the high-cost medical care system. At hospitals and pharmacies that do not accept this system, you may be required to provide a certificate, so please contact us.

You will be sent a notice of tax amounts, and a statement of tax paid, around the middle of July. The figures in these documents are calculated based on your income for January to December 2023. The documents are sent to the head of the household, and will arrive in a gray envelope.

Contact: National Health Insurance and Pension Division (Kokuhō-nenkin-ka, 国保年金課), tel.: 082-420-0933.

Night-time and holiday hospitals

- ・ 夜間休日当番医
- ・
- ・

- ・ Night-time and holiday duty hospitals: Full information about night-time and holiday duty hospitals within Higashihiroshima City is published in the Japanese-language version of the monthly city newsletter 'Higashihiroshima' (the page inside the back cover; only in Japanese), and on the Higashihiroshima City website (in Japanese and English). The information is subject to change at short notice, so before going to a medical facility, please be sure to call to confirm details.

Recently, there are more and more patients using emergency medical facilities at night and on holidays even though their situation is not serious. In some cases, these patients have prevented or delayed the treatment of patients with truly serious illnesses, and additionally, such cases are one of the reasons for doctors becoming overworked. Emergency medical facilities open at night and on holidays are for patients with serious, emergency conditions. Please try to visit the medical facility you use normally, during opening hours on weekdays.

- ・ Emergency medical treatment for children: Please call the advice line on #8000 (if you cannot get through on this number, please call 082-505-1399). The service is available every day between 19:00 and 8:00 the following morning. You can obtain information about whether or not you should take your child to a medical facility outside of normal opening hours (at nights, on weekends or holidays, etc.).

- ・ If you have a medical problem at night or on weekends, and you are unsure about whether or not you should go to a medical facility: Please call the Hiroshima area emergency consultation center on #7119. The service is free, and is available 24 hours a day, 365 days a year. The staff will be able to give you advice on whether to rest at home and see how symptoms develop, or whether you should go to a medical facility. If necessary, they can give you information about which facility to go to, or they can connect you directly to the 119 emergency service. In an emergency, do not hesitate to phone 119.
